

Dear Hiring Manager,

I am writing to express my strong interest in the Software Developer position at your company.

As a Full-Stack Software Developer with experience in Java, TypeScript, modern Web Frameworks, and Cloud Platforms, I am excited about the opportunity to contribute to your team. My background includes building end-to-end applications from Frontend UI to Backend services with Scalable Deployments on AWS.

At ThinkRoman Ventures, I have:

- Built and deployed scalable full-stack applications using Next.js, MongoDB, and Prisma ORM
- Designed modular SaaS architectures with multi-tenant and production-grade performance
- Integrated third-party APIs including WhatsApp, Zoom, and payment gateways
- Optimized performance across mobile and desktop platforms

My personal projects, including OutPost (an AI Social Scheduler) and Forms Factory (a Collaborative Form Builder), demonstrate my ability to architect and deliver complete SaaS products independently.

I would welcome the opportunity to discuss how my skills and experience align with your needs.

Thank you for your consideration.

Best regards,

Sudeep Kudari
